ABOUT THE EVENT

BUILDER MYANMAR 2020 Featuring: Construction Myanmar 2020 and Building Material Myanmar 2020 is set to be Myanmar’s most complete Building & Construction event in Myanmar that brings together and international congregation of building and construction companies, contractors, property developers, architects and also its supporting industries gathered in Yangon to showcase the latest developments in the building and construction industry

THE FORECAST FOR THE CONSTRUCTION & BUILDING INDUSTRY IN MYANMAR

The Myanmar construction industry increased in value at a compound annual growth rate (CAGR) of 11.48% during the review period (2007-2011). This growth was supported by the country’s improving political stability, increasing number of investment opportunities in energy and public infrastructure projects, and rapid inflow of foreign direct investment (FDI) from Vietnam, Thailand, China, Singapore and Malaysia.

The construction industry growth is expected to remain strong over the forecast period, driven by the government’s increasing expenditure on improving Myanmar’s public infrastructure, and the rising interest of domestic and foreign real estate developers on constructing residential units to meet the population’s huge housing demand. The infrastructure and residential construction markets together generated 77.3% of the total Myanmar construction industry value in 2011, and the contribution of these two markets to the overall Myanmar construction industry growth will be significant over the forecast period. It is anticipated that the construction industry will increase in value at a CAGR of 7.84% over the forecast period.

According to the report “Construction in Myanmar - Key Trends and Opportunities to 2016” by Timetric, the commercial construction market recorded a CAGR of 8.09% during the review period. This growth was mainly driven by the leisure and hospitality and office buildings categories, which together accounted for 67.2% of the commercial construction market value in 2011. Furthermore, since the 2013 Southeast Asian Games (SEA Games) and 2014 Asian Summit will be held in Myanmar, the demand for hotel and land has started rising in cities such as Yangon in preparation for the anticipated influx of foreign investors and tourists to the country. Timetric expects the commercial construction market will register a CAGR of 8.01% over the forecast period. The contribution from tourism will be significant to the Myanmar commercial construction activity over the forecast period.

SOME OF THE MASSIVE PROJECTS IN MYANMAR

$94M DEVELOPMENT IN MYANMAR’S STAR CITY

Yoma Strategic Holdings Ltd. (Yoma) announced that it has through its wholly-owned subsidiary SPA Project Management Pte., Ltd. (SPA PM) entered into a shareholder’s agreement to form a joint venture with Dragages Singapore Pte Ltd (DSPL) to construct 1,043 units of Zone B of Thanlyin Star City in Myanmar, which is 70% beneficially owned by the Group.

FRAGRANT TO BUILD MEGA PROPERTY IN MYANMAR

In a bid to grow its presence in Myanmar Fragrant Property will invest US$300 million (S$373.59 million) in the emerging country. The firm set aside an initial budget of about US$40 million (S$49.81 million) to register two subsidiaries - Myanmar Fragrant and Myanmar Fragrant Development - which will undertake real estate projects in the country. These include general utilities, city planning and electric train systems.

VIETNAM COMPANIES BUILDS NEW BRICK FACTORY IN MYANMAR

Vietnam is taking steps to build its influence in Myanmar - literally. In mid-June, representatives of several Vietnamese firms signed joint venture agreements with construction companies to build brick factories here. U Soe Min Naing, director of Shine Group of Companies, said his firm had agreed to jointly develop a US$10 million brick factory outside either Yangon or Nay Pyi Taw with Viglacera Corporation that will produce a “massive” amount of bricks every year.
ABOUT THE ORGANIZER

Fireworks Myanmar is part of the Fireworks Trade Media Group, one of Asia’s largest independently owned trade media company. Established in 2008, it is currently made up of 5 different business divisions:

- **Fireworks Exhibitions and Conferences** (Trade Exhibitions)
- **Fireworks Business Information** (Trade Publications, Print and Online)
- **QUIK Fairs** (Industrial Roadshows & Niche Events)
- **JUZ Talk** (Trade Conferences and Forums)
- **Fireworks Market Intel** (Market Intelligence and Industry Maps)

As the new generation in the trade media industry, we have since grown leaps and bounds with our own international offices, partnerships and acquisitions spanning in more than 12 countries worldwide!

**BUYERS ATTENDING THIS EVENT:**

- Architects
- Engineers
- Designers
- General Contractors
- Construction Companies
- Subcontractors
- Commercial Builders
- Home Builders
- Developers
- Real Estate Professionals
- Building Managers
- State Planners
- Spec Writers
- Government Agencies
- Municipalities
- Facility Managers
- Property Management Firms
- Military/ Corp. of Engineers

**WHO SHOULD EXHIBIT?**

- Construction & Building Equipment
- Earth Moving Equipment - Backhoe Loaders, excavators, Front end Loaders, graders and Dozer.
- Vibratory Soil compactors for earthwork, Vibratory tandem Rollers, Pneumatic Tire rollers for asphalt work in Road Construction.
- Paving Equipment for Ragid and Flexible pavements, track laying, Road Maintenance pavement and Grouting Work.
- Integrated concrete and Bitumen batching and mixing equipments.
- Mobile and stationary Crushing Equipment package comprising of different stage crushing, screening and grinding for producing aggregates and sand.
- Material handing equipment like cranes, forklifts, hoists, and Rough terrain transport system for the Production and Conveyance of RMC, Bitumen and earth at the job site.
- Hydraulic and pneumatic Drilling equipment. Slope stabilisation drills with accessories like DHDs, Drifters, concrete pumps, Retracting tools, Rock Breakers for demolition and secondary breaking.
- Sewer construction and maintenance systems, conduit construction systems.
- Plant and Machinery for tunnel and gallery construction.
- Trenchers, Underground Cable-Laying, Pipe Laying, Drainage and Trench digging Equipment.
- Prime movers like Engines, and Hydraulic Power Transmission products.
- Utility equipment like Portable light Towers, Portable / Stationary Generators, Air compressors, Plate compactors, walk behind rollers, Skid Steer Loaders.
- Spare Parts and accessories like pneumatic valves and Hydraulic pump and motors, Pneumatic, Hydraulic, Electrical tools required for maintenance to support high value Construction Equipment for optimum performance.
- Fluid Engineering and Sub-assemblies for Construction Industry.
- Site Installations.
- Safety devices.
- Quality control equipments, systems, standards, Testing methods, Measuring & Control instruments and Surveying Equipment.
- IT for Construction for integrated project management and accounting.
- Railway track Laying Machines.
- Automatic Control Systems.
  - Emergency Management Technology
  - Construction Tools
  - Trucks and Specialist Vehicles
- Building Materials
- Aluminium Frames & Structures
- Adhesives and Sealants
- Architectural Finishing Products
- Building Materials
- Ceramic Tiles
- Doors & Windows
- Engineering & Design Services
- Environment Protection Equipment
- Facades & Cladding
- Fasteners
- Glass & Glazing
- Gypsum Products
- Interior Decorative Products
- Landscaping and Garden Ornaments
- Locks & Handles
- Masonry-Bricks, Block work, Cement
- Nuts, Bolts, Screws, & Hinges
- Paints
- Precast Concrete Structures
- Props & Beams
- Protective Coatings, Powder
- Sanitary Fixtures & Appliances
- Scaffolding, Formwork and Shuttering
- Security & Safety Systems
- Solar Systems
- Stamped Concrete
- Steel Products
- Street furniture - Signage & Signs
- Swimming Pools and Pool Accessories
- Timber - Frames, Beams
- Wall covering - Finishes external and internal
- Water & Heat Insulation
- Wood Products
- Aggregate
- Concrete Products
About The Event

Builders Myanmar 2020 featuring: Construction Myanmar 2020 and Building Materials Myanmar 2020 is set to be Myanmar’s most complete Building & Construction event in Myanmar that brings together an international congregation of building and construction companies, contractors, property developers, architects and also its supporting industries gathered in Yangon to showcase the latest developments in the building and construction industry.

The Venue

Novotel Yangon Max Convention Centre Yangon, Myanmar
